WHAT MAKES UEA SO SPECIAL?

The University of East Anglia is a publicly funded major UK research and teaching university. It was built to embody a radical new vision for higher education, where interdisciplinarity is crucial and excellence in both research and teaching is valued. UEA consistently ranks within the top quarter of universities in the UK for the quality of research and teaching.

As a major regional employer and cultural centre, we take our regional civic responsibilities very seriously and have kept our sights on the people and place we call home. In fact, we launched our University Civic Charter in October 2023; created from in-depth community engagement, renewing our commitment to the region as part of our 60th anniversary.

There are many things which make UEA special, not least of which is the community of staff and students that work and study here. UEA includes three Nobel prize winners, including Sir Paul Nurse and Sir Michael Houghton, and many fellows of the Royal Society and British Academy amongst our alumni and current staff.

Our campus is home to Sir Denys Lasdun's iconic brutalist architecture set in hundreds of acres of beautiful country park that includes a large broad (lake). In the spirit of Lasdun's ambition to inspire an anatomy of ideas, today, UEA is tackling some of the key challenges of the changing world. UEA's research combines disciplines

and breaks new boundaries across its priority research themes of climate, creative and health.

UEA is the place where global warming was first documented. Since the 1970s, UEA's Climatic Research Unit, and more recently Tyndall Centre for Climate Change (Headquarters hosted at UEA), have played a pivotal role in developing temperature records and climate models, contributing to the understanding of climate change, and informing global policy. Many UEA scientists have played significant roles in the Intergovernmental Panel for Climate Change (IPCC), which was jointly awarded the 2007 Nobel Peace Prize for its efforts to increase public knowledge of anthropogenic climate change. Environmental Science and Global Studies at UEA continue to be a major powerhouse for research and teaching.

UEA is widely regarded as a pioneer in creative writing, having established the UK's first Creative Writing Masters programme in 1970. This renowned programme has since attracted and produced numerous successful writers, including Booker Prize winners such as Ian McEwan and Anne Enright, and Nobel Prize Winner Sir Kazuo Ishiguro. In recent years, UEA academics have played a pivotal role in the discovery and presentation of the Gloucester Royal shipwreck (Norfolk's Mary Rose). Our iconic Sainsbury Centre for Visual Arts is a major museum and arts research facility.

Health research at UEA not only embraces the Faculty of Medicine and Health but draws in research from both social and natural sciences. Research under this theme has made major contributions in the fields of healthy ageing, epidemiology and involving citizens (via our innovative Citizens' Academy) in improving health care outcomes. This theme benefits from close association with the other major research institutes on the Norwich Research Park; notably the Norfolk and Norwich University Hospital and the Quadram Institute. The Norwich Cancer Research Network, and Norfolk Institute for Healthy Ageing, are examples of key mechanisms for delivery of real impact from health research at UEA.

UEA has been a major success over the last 60 years and looks forward with confidence to the next 60 years.

For an informal discussion about the post please contact Medha Sule, Honorary Associate Professor, via m.sule@uea.ac.uk

UEA is part of the Norwich Research Park

Norwich Research Park (NRP) membership locates UEA in one of the largest concentrations of research institutes in the whole of Europe – four independent internationally-renowned research institutes: John Innes Centre, Quadram Institute, Earlham Institute and The Sainsbury Laboratory; with the University of East Anglia and Norfolk and Norwich University Hospitals NHS Foundation Trust, supported and funded by The John Innes Foundation, The Gatsby Foundation, and UKRI Biotechnology and Biological Sciences Research Council.

The NRP provides an ideal environment for collaborative use of infrastructure and facilities, with a single portal for academics and businesses to access the specialist facilities across the Park.

The Enterprise Centre is a regional business, knowledge and innovation hub, with workspace provision and supports over 80 businesses working alongside UEA staff and students in a dynamic and vibrant entrepreneurial community. On the wider NRP, there are dedicated laboratory and office spaces in the Innovation Centre and Centrum hosting over 600 staff within a total of 115 businesses and spinouts.

THE ROLE

As Clinical Associate Professor in Medical Education within the Graduate Entry Medicine (GEM) team, you will provide leadership for Longitudinal Integrated Clerkships (LICs). The role will be 0.2FTE and the key responsibilities and requirements are set out below. This is a new role and is part of the growing team developing and delivering our Graduate Entry Medicine Programme. You will need to be currently practising in a clinical primary care setting.

Longitudinal Integrated Clerkships (LICs) represent a strategic approach to clinical education that supports high-quality learning, workforce development, and continuity of care. As an alternative to traditional block rotations, LICs enable medical students to develop sustained relationships with patients and clinical supervisors while achieving core clinical competencies across multiple disciplines in parallel. In year 3 of GEM students will be placed in a General Practice placement for a 20-week period.

During this time, they will have high level exposure to the full breadth of primary care cases, learning with the support of their Tutors and other designated members of the clinical team. They will also have the opportunity to be involved in the practice meetings with the wider Multi-Disciplinary Team discussing patient care and clinical governance. The students will undertake a Quality Improvement Activity on placement, with the opportunity to implement meaningful change to benefit patient care or practice systems where they are placed.

Students will also experience wider community medicine

and support available for patients with periods of time on other community placements whilst being supervised appropriately. This will enable the students to obtain real world experience of primary care and community care with appropriate support and supervision.

The key management roles which form the School's Executive Committee are essential for the operational running and strategic development of Norwich Medical School. They offer senior academic staff the opportunity to shape and develop the role, status and direction of the School in line with the UEA and School strategies for future growth and success.

KEY RESPONSIBILITIES

- Create partnerships with General Practices and community services to deliver 20-week students placements based in a General Practice.
- Assist in the creation of suitable Learning Outcomes to be obtained on placement, including guidance on suitable Quality Improvement Activities for students to undertake
- Working closely with the GEM Course Director, and Primary Care Lead to provide leadership in development of Clinical Skills and curriculum delivery.
- Work with assessment lead for Formative and Summative assessment of GEM student's clinical skills, and progress, using workplace-based assessments and OSCEs. Appropriate involvement in other assessments, blue printing, standard setting and review of assessment activities. Support assessment led to make sure that the assessments are fair, reliable, valid and fit for purpose.

THE ROLE (CONTINUED)

- Providing appropriate mentoring to GEM students, based on level of study and competence.
- Establish monitoring and evaluation processes for GEM student progress on placement, including identifying and supporting students in difficulty
- Attend GEM course team meetings and other relevant meetings
- Support the course director in regular review of the curriculum, development of relevant policies and suggest improvement as the course evolves to make sure that the curriculum delivery remains current and in line with professional and GMC needs
- Participate and design quality assurance processes for placement and provide a report to Course director
- Participate in regular appraisal and performance management meeting with course director
- Build strategic alliances and partnership with community multidisciplinary colleagues and be the ambassador for the GEM students within the primary care setting
- Assess and influence professionalism and appropriate student support activities
- Support faculty development in appropriate areas at GEM Tutor Development/Training Days
- Undertake any reasonable activities as requested by the Head of department, e.g. attendance at open days, away days, and team building activities.

THE PERSON

EDUCATION, EXPERIENCE AND ACHIEVEMENTS

- GMC registered with license to practice and on specialist register (E)
- Proven post CCT experience (E)
- Must be a practicing GP (E)
- Substantive and varied experience of teaching in higher education to students at UG and PG level within clinical medicine (E)
- Demonstrable experience of, or potential for, enterprise/engagement (E)
- Demonstrable experience of delivering or supporting clinical placements in community settings (E)
- Experience in recruiting and supporting new placements providers (E)
- Relevant Postgraduate Educational qualification (e.g. Diploma, Masters, PhD) (D)
- Fellowship of Advance Higher Education (D)
- Teaching commendations, or awards, or other evidence of excellence in the area of teaching/ learning (D)
- Previous experience with UEA or other med school teaching/ leading roles (D)

SKILLS AND KNOWLEDGE

- Skilled in giving feedback to colleagues (E)
- Strong strategic leadership skills in education (E)
- Excellent oral, written and interpersonal and communication skills with ability to deal face-to-face, via telephone and email with individuals from a variety of backgrounds, cultures and nationalities (E)
- Ability to work effectively and collaboratively within and across teams (E)
- Proficient in using IT and Virtual Learning Environments e.g. Blackboard (D)

PERSONAL ATTRIBUTES

- A high degree of personal initiative and the ability to work with minimum supervision whilst appreciating the limits of one's own responsibility (E)
- Excellent organisational and self- and time-management skills (E)
- Ability to meet deadlines while working flexibly in a busy environment (E)
- Strong negotiating and influencing skills (E)

- Keen interest in team functioning and interprofessional issues (E)
- Commitment to maintaining academic and professional standards (E)
- Demonstrate UEA's values and commitment to Equality & Diversity (E)

Essential Requirements (E) are those, without which, a candidate would not be able to do the job.

Desirable Requirements (D) are those which would be useful for the post holder to possess and will be considered when more than one applicant meets the essential requirements.

FURTHER INFORMATION

The post is available from 1 June 2026 on an indefinite part-time basis.

Salary will be in accordance with the applicable clinical academic salary scale for Clinical Associate Professor appointments, and dependent on skills and experience.

Relocation expenses are reimbursable under certain conditions.

Place of Work - The University is strongly committed to providing an excellent student experience and research environment, and it is expected that all staff will be available on campus to carry out their duties during their working week in support of these goals. We have a hybrid-working policy which supports a mix of at home and on campus 'hybrid' working for many roles. For the majority of hybrid roles, the expectation is a minimum of 60% of working time will be spent physically present in the workplace.

The flexibility of the hybrid-working policy allows the possibility of some remote working, but it is the expectation that all appointments will be UK based, with any overseas working agreed in advance by exception only.

If successful you will be asked to show evidence of right to work in the UK prior to any formal offer being made. Non-British and non-Irish nationals entering the UK to undertake employment or who are currently in the UK will have to meet eligibility criteria under the points-based immigration system. The University may be able to provide sponsorship under the Skilled Worker route if relevant criteria are met. Please note, due to the complexities of the immigration system, Skilled Worker visa sponsorship is not guaranteed for every role. If you would like further information about whether this role is eligible for visa sponsorship, please contact staff.visacompliance@uea.ac.uk

The post is superannuable under the Universities Superannuation Scheme and there is an annual leave entitlement of 30 days plus statutory (8 days) and customary (6 days) holidays. The University is committed to creating an environment where the health, welfare and safety of all students and staff is of paramount importance. The University's Safeguarding Policy addresses both child protection and safeguarding

children, young people and vulnerable adults within the work of the University. Appointment will be subject to satisfactory pre-employment checks, which may include an Occupational Health assessment.

Information on the benefits of working at UEA can be found at <https://www.uea.ac.uk/about/working-at-uea>.

If you require the information contained within this candidate brochure in a different format please email staff.recruitment@uea.ac.uk

HOW TO APPLY

To apply for this vacancy, please follow the online instructions at: <https://vacancies.uea.ac.uk>

The closing date for this role is 11:59pm on **25 May 2026**.

Please note that the application form contains an Equal Opportunities section which must be completed. The Equal Opportunities information will not be made available to the selection panel and will not form any part of either the short-listing or decision making process.

It is anticipated that presentations and interviews will take place on **8 June 2026** and we will inform you of the outcome of your application prior to this date. Reasonable travel and incidental expenses incurred in attending the interview will be reimbursed (please ensure that you keep all receipts). Please note that if you are offered a post and decline the offer, travel and incidental expenses will not be reimbursed.

ABOUT THE SCHOOL

Norwich Medical School (MED), established at the University of East Anglia in 2001, has developed into a high-performing, multidisciplinary academic School with a strong reputation for excellence in education, research, and clinical partnership. The School comprises over 300 staff across teaching, research, academic, and professional services roles, supported by NHS secondees and honorary appointees spanning medical specialties, clinical psychology and psychological therapies, biological sciences, health economics, epidemiology, and medical statistics.

The School has achieved significant growth in recent years, particularly in response to the national expansion of medical student numbers to address workforce shortages. Alongside our flagship MB BS programme, which has over 1000 students, Norwich Medical School delivers a diverse education portfolio, including Graduate Entry Medicine (GEM) and the BSc Clinical Sciences, alongside a substantial postgraduate portfolio aligned to NHS workforce priorities.

A key strategic priority is the expansion of Transnational Education (TNE) partnerships, enabling the School to extend its global footprint, diversify income streams, and enhance its international reputation. These partnerships support collaboration in education, research, and workforce development, positioning the School to respond to global healthcare workforce needs and sector-wide financial pressures.

Research activity is organised around thematic priorities across three departments, addressing major health challenges from discovery science through to clinical trials and applied health research.

The School is a core partner within the Norwich Research Park, with collaborations including the Norfolk and Norwich University Hospital, the Quadram Institute, the Earlham Institute, and the John Innes Centre.

The School is closely aligned with the Norfolk and Waveney University Hospitals Group, strengthening its role within an integrated regional health system and supporting clinical education, workforce development, and collaborative research across hospital, primary care, and mental health settings.

ABOUT THE FACULTY

The Faculty of Medicine and Health Sciences is led by the Pro Vice Chancellor of Medicine and Health Sciences, Professor Philip Baker, working closely with the Deans of School, and the Associate Deans who share responsibility for the areas of Research; Enterprise and Engagement; Education; Admissions; and PGR. These senior academics, together with the Heads of Research Departments, Faculty Director of Operations, the Human Resources Business Partner, and the Senior Finance Business Partner (Faculty), form the Faculty Executive.

Teaching is organised through the Faculty's two Schools of study, comprising Health Sciences (HSC) and Norwich Medical School (MED), assisted by a Centre for Inter-professional Practice (CIPP).

The Faculty also has strong research links with the Norwich Research Park, comprising the Quadram Institute (QI), the John Innes Centre (JIC), the Earlham Institute (EI) and the Norfolk and Norwich University Hospital NHS Foundation Trust, see <https://www.norwichresearchpark.com>

OUR VALUES

Shaped by staff, our UEA values represent a core set of standards for how we behave as an employer, drive excellence in teaching, learning and research, and collaborate as an anchor institution in our local community.

From tackling global challenges, striving for student and staff success, and creating a vibrant inclusive environment, our values are what unite us.

- ✦ AMBITION
- ✦ COLLABORATION
- ✦ EMPOWERMENT
- ✦ RESPECT

OUR VALUES (CONTINUED)

AMBITION

We are ambitious for our future success.

We are forward-thinking and brave in our approach and decisions. We make space for innovation and creativity, seizing opportunities that are responsible and sustainable. We are ambitious for the advancement of education and research.

COLLABORATION

We are collaborative in our approach.

We work together with shared purpose. We build connections, share ideas and develop new networks. We champion our regional, national and global relationships and demonstrate that together we can achieve greater goals and positively influence the world around us.

EMPOWERMENT

We empower ourselves and each other.

We develop ourselves and others, trusting people to make decisions based on their expertise and knowledge. We continually improve systems and processes to support us in working in an agile and efficient way.

RESPECT

We respect each other.

We treat everyone with respect and dignity. We value diversity and foster a community where people can express different thoughts and views. We are open to challenge, so we can learn and improve. We encourage a positive, inclusive environment where everyone has opportunities to fulfil their potential.

ACCOLADES

- Queen's Anniversary Prizes for Higher and Further Education have been awarded to UEA for international development studies (2009), creative writing (2011) and environmental sciences (2017). Notable alumni include Sir Paul Nurse (1973, Nobel Prize for Medicine 2001), Sir Kazuo Ishiguro (1980, Nobel Prize for Literature 2017), Sir Michael Houghton (1972, Nobel Prize for Medicine 2020) and Sarah Gilbert (1983) who led the Oxford University team to develop a COVID-19 vaccine, approved in 2020.
- Our Doctoral College, established in 2018, hosts six Doctoral Training Partnerships and integrates Faculty and School provision for 1600 Postgraduate Research Students (including those from across the Norwich Research Park), enabling collaboration and innovation.
- We recognise our global impact and were one of the first universities to declare a climate and biodiversity emergency in June 2019. Our sustainable campus, including over 50 acres of environmentally valuable parkland, is constantly evolving with ambitions to be 100% net zero by 2045 or sooner.
- UEA is a University of Sanctuary, an accreditation given to universities that show an ongoing commitment to creating a welcoming culture of inclusivity and awareness.
- UEA was awarded the Silver Athena SWAN Award in 2019, and all our Schools hold awards at Bronze or Silver.

A vibrant place to study, learn and work, UEA is a very special place.

A SUSTAINABLE UNIVERSITY

At UEA, we are now working to create a university that will be even better in the future, and we are working to achieve net zero carbon by 2045 (or earlier). Our Sustainable Ways vision is one of a resilient university – where consumption is efficient and self-generated energy supports low carbon goals, supported by a vibrant community of world-leading researchers and inspired graduates.

At a basic level, our sustainable development means that we try to balance the 'three pillars' of environmental, economic and social elements.

We challenge our environmental impact through on-site energy generation and a district heating and cooling network, reducing our reliance on grid electricity and therefore fossil fuels. We promote and use recycled and 'eco' products such as biological cleaning materials. We champion local suppliers and ethical causes, including Fairtrade and vegan products. We seek to ensure value for money in a holistic, whole-life costing sense in our new buildings and procurement contracts.

OUR INITIATIVES

Central campaigns, such as holiday shut-downs or awareness day events, support a whole-University approach to energy saving and other initiatives.

Follow us on X [@SustainableUEA](https://twitter.com/SustainableUEA)

OUR CAMPUS

UEA is based on a campus that provides top quality academic, social and cultural facilities to over 17,000 students.

Although located in 320 acres of rolling parkland, virtually no part of the campus is more than a few minutes' walk from anywhere else, so everything is close at hand – the library, nursery, health centre, supermarket (incorporating a post office) and restaurants. Amongst the striking buildings is the UEA's Sainsbury Centre for Visual Arts, which contains the Robert and Lisa Sainsbury Collection – one of the greatest art collections formed in Europe during the 20th Century.

The University has invested in new learning and teaching and research spaces, including a celebrated new Enterprise Centre that underpins its commitment to promoting student enterprise and entrepreneurship.

Sport and Recreation plays a major part in the life of the University of East Anglia, centred around the major Sportspark facility which is one of the most successful community sport facilities in the UK. This accessible and affordable facility provides a diverse range of activities, and incorporates a 50m Olympic size swimming pool, indoor climbing wall, coaching resource centre and sports injury clinic.

NORWICH

A CITY OF STORIES

The city's motto is 'A fine city' and its strong cultural heritage has seen Norwich maintain the best of its historical character whilst developing to become one of the most vibrant and attractive cities in Europe. Norwich offers miles of riverside walks and cycle ways, and a unique collection of 1930s parks. The city is surrounded by beautiful countryside and within easy reach of the stunning Norfolk coast.

Norwich is a UNESCO World city of Literature, the first in the UK, as well as being one of the newly named Tech Cities recognising the growth of digital businesses in the region. The most prominent high-rise building, apart from the castle, is the magnificent 11th century cathedral, which still dominates the skyline. The city's medieval centre of cobbled streets remains largely intact, but there is still space for modern buildings such as the city's centrepiece, the Forum, which is a striking piece of contemporary architecture. The glass front overlooks the colourful open-air market (one of the largest in the country) and reflects the city in all its diversity.

The city is consistently rated as one of the top ten shopping venues in the UK. Norfolk and Suffolk attract thousands of visitors each summer. The famous Norfolk Broads are among the most important wetlands in Europe and a haven for rare plants, wildlife and insects. The Broads attract holidaymakers who come to navigate the intricate natural network of waterways formed by the Rivers Bure, Yare and Waveney and their tributaries.

For further information about UEA's excellent facilities, staff benefits, picturesque campus and the UEA working environment, please visit the 'Careers at UEA' microsite <https://www.uea.ac.uk/about/working-at-uea>. Additional information about living and working in the city of Norwich can be found at <https://www.workinnorwich.co.uk/>

If there is another city in the United Kingdom with a school of painters named after it, a matchless modern art gallery, a university with a reputation for literary excellence which can boast Booker Prize-winning alumni, one of the grandest Romanesque cathedrals in the world, an extraordinary new state-of-the-art public library then I have yet to hear of it. Norwich is a fine city. None finer.

STEPHEN FRY

LOCATION

Some cities you've heard of, others you have to discover. Norwich is one of the most beautiful, modern historic cities in Britain. It's a city that celebrates the independent, stimulates creativity, promotes change and encourages diversity.

UEA is a campus university located 3 miles from the centre of Norwich. Situated in the heart of Norfolk, which means it's an ideal location to explore Norwich and beyond.
