WHAT MAKES UEA SO SPECIAL?

The University of East Anglia is a publicly funded major UK research and teaching university. It was built to embody a radical new vision for higher education, where interdisciplinarity is crucial and excellence in both research and teaching is valued. UEA consistently ranks within the top quarter of universities in the UK for the quality of research and teaching.

As a major regional employer and cultural centre, we take our regional civic responsibilities very seriously and have kept our sights on the people and place we call home. In fact, we launched our University Civic Charter in October 2023; created from in-depth community engagement, renewing our commitment to the region as part of our 60th anniversary.

There are many things which make UEA special, not least of which is the community of staff and students that work and study here. UEA includes three Nobel prize winners, including Sir Paul Nurse and Sir Michael Houghton, and many fellows of the Royal Society and British Academy amongst our alumni and current staff.

Our campus is home to Sir Denys Lasdun's iconic brutalist architecture set in hundreds of acres of beautiful country park that includes a large broad (lake). In the spirit of Lasdun's ambition to inspire an anatomy of ideas, today, UEA is tackling some of the key challenges of the changing world. UEA's research combines disciplines and breaks new boundaries across its priority research themes of climate, creative and health.

UEA is the place where global warming was first documented. Since the 1970s, UEA's Climatic Research Unit, and more recently Tyndall Centre for Climate Change (Headquarters hosted at UEA), have played a pivotal role in developing temperature records and climate models, contributing to the understanding of climate change, and informing global policy. Many UEA scientists have played significant roles in the Intergovernmental Panel for Climate Change (IPCC), which was jointly awarded the 2007 Nobel Peace Prize for its efforts to increase public knowledge of anthropogenic climate change. Environmental Science and Global Studies at UEA continue to be a major powerhouse for research and teaching.

UEA is widely regarded as a pioneer in creative writing, having established the UK's first Creative Writing Masters programme in 1970. This renowned programme has since attracted and produced numerous successful writers, including Booker Prize winners such as lan McEwan and Anne Enright, and Nobel Prize Winner Kazuo Ishiguro. In recent years, UEA academics have played a pivotal role in the discovery and presentation of the Gloucester Royal shipwreck (Norfolk's Mary Rose). Our iconic Sainsbury Centre for Visual Arts is a major museum and arts research facility.

Health research at UEA not only embraces the Faculty of Medicine and Health but draws in research from both social and natural sciences. Research under this theme has made major contributions in the fields of healthy ageing, epidemiology and involving citizens (via our innovative Citizens' Academy) in improving health care outcomes. This theme benefits from close association with the other major research institutes on the Norwich Research Park; notably the Norfolk and Norwich University Hospital and the Quadram Institute. The Norwich Cancer Research Network, and Norfolk Institute for Healthy Ageing, are examples of key mechanisms for delivery of real impact from health research at UEA.

UEA has been a major success over the last 60 years and looks forward with confidence to the next 60 years.

For an informal discussion about the post please contact Corinne Collett via c.collett@uea.ac.uk

UEA is part of the Norwich Research Park

Norwich Research Park (NRP) membership locates UEA in one of the largest concentrations of research institutes in the whole of Europe – four independent internationally-renowned research institutes: John Innes Centre, Quadram Institute, Earlham Institute and The Sainsbury Laboratory; with the University of East Anglia and Norfolk and Norwich University Hospitals NHS Foundation Trust, supported and funded by The John Innes Foundation, The Gatsby Foundation, and UKRI Biotechnology and Biological Sciences Research Council.

The NRP provides an ideal environment for collaborative use of infrastructure and facilities, with a single portal for academics and businesses to access the specialist facilities across the Park.

The Enterprise Centre is a regional business, knowledge and innovation hub, with workspace provision and supports over 80 businesses working alongside UEA staff and students in a dynamic and vibrant entrepreneurial community. On the wider NRP, there are dedicated laboratory and office spaces in the Innovation Centre and Centrum hosting over 600 staff within a total of 115 businesses and spinouts.

THE ROLE

The primary role of the post holder is to support the IMAGINE trial at the Norwich Clinical Trials Unit (CTU).

• IMAGINE (CGM for the Early Detection and Management of Hyperglycemia in Pregnancy) is an international trial being coordinated by researchers at the Jaeb Center for Health Research (JCHR) in the USA, with UK Investigators Professors Helen Murphy and Eleanor Scott.

The post holder will be responsible to the CTU Deputy Director, Trial Manager and the Chief Investigators of the above study.

The primary objectives of this post are:

- To set up the study at 2 UK sites in accordance with relevant regulations and CTU practice.
- To support the JCHR study team to maintain effective coordination of the UK aspect of the study.
- To establish and maintain quality-assured systems for collection and management of CGM data from UK study sites.
- To support JCHR with central monitoring of UK data.
- To act as a central Trials Unit contact for the study in the UK.
- To support the Trial Manager in liaising with all collaborating organisations and individuals as required ensuring the smooth running of the study.
- To uphold the quality of the trial and compliance with the protocol, GCP and applicable standards and regulations.

KEY RESPONSIBILITIES

- Work closely with the Chief Investigators, Trial Manager and JCHR Team to develop UK-specific trial documentation (e.g. protocol, participant information, trial plans and instructions) that is compliant with the current regulations, Sponsors' SOPs and Norwich CTU Working Practices, and ensuring this is implemented and kept up to date.
- Securing all necessary UK approvals for the trial and participating sites according to the UK Clinical Trials Regulations, ICH Good Clinical Practice, the European Directives on Clinical Trials and Good Clinical Practice and the Department of Health's Research Governance Framework.
- Ensure the efficient, day-to-day management of the study in the UK.
- Establishment of procedures to ensure adherence to study protocol, regulatory and administrative requirements (including international requirements), and safety reporting.
- Maintaining all trial files for the UK, including the trial master file, and oversight of site files.
- Ensuring sites have appropriate training, including assisting JCHR with conducting site initiation visits, and maintain necessary records.
- Monitoring trial recruitment, providing support and motivation to recruiting staff as required.
- Working with the Trial Manager, Chief Investigators, and JCHR team to ensure that the trial is meeting its targets and to predict and plan any changes that warrant requests to changes in protocol, ethical and regulatory approvals, funding or time.

THE ROLE (CONTINUED)

- Ensuring that good communication is maintained between the trial team, the CTU and recruiting site staff including the provision of regular and ad hoc information, both written and verbal, to trial participants and sponsors and stakeholders, to include reports, updates, guidance, and newsletters.
- Providing updates on the progress of the trial at regular Trial Management Group, Data Monitoring and Trial Steering Committees as required.
- Planning and supporting meetings and work of the various groups associated with the trial and ensuring appropriate minutes are taken of all trial related meetings.
- Overseeing data collection and data entry at UK sites, and entering data within the CTU e.g. SAE forms as required; assisting JCHR with data cleaning and validation for UK study sites, including querying and chasing missing data in a timely manner.
- Assisting JCHR with central monitoring of UK data.
- Understanding the requirements of the various controlling bodies, agencies and frameworks, guiding the project in conforming to those requirements and co-ordinating any necessary quality control and quality assurance activities.
- Taking responsibility for the quality of the post holder's own work.
- Ensuring the quality of the trial through oversight of the trial team activities, reports such as monitoring and auditing reports, communications and documentation, identifying the need and opportunities for improvement, including corrective and preventative actions.
- Escalating potentially significant quality issues to the Trial Manager and CTU Director.
- · Representing the trial at conferences, meetings and

internal unit meetings as appropriate.

- Keeping the relevant literature searches up to date.
- Participating in UEA and Norwich CTU training and development initiatives.
- Undertaking any other comparable tasks as required including being prepared to assist those working on other trials as required by the CTU Director and Chief Investigators.

In addition to these duties the post holder will be expected to be flexible in helping their colleagues with other aspects of the work of Norwich Medical School and CTU when required to do so.

The post holder will carry out other duties as are within the scope, spirit and purpose of the job description as requested by the line manager or Head of Department.

THE PERSON

EDUCATION, EXPERIENCE AND ACHIEVEMENTS

- Degree (or equivalent professional qualification) in a relevant discipline and/or equivalent experience in clinical trials (E)
- Evidence of ability to set up and maintain effective administrative systems in clinical research (E)
- Experience of clinical trial administration/management (E)
- Understanding of UK Clinical Trials Regulations, ICH, Good Clinical Practice, the European Directives on Clinical Trials and Good Clinical Practice and the Department of Health's Research Governance Framework (E)
- Experience with Continuous Glucose Monitoring (CGM) systems, including coordinating and managing CGM data collection (E)
- Experience in trials involving pregnant women (D)
- Experience of setting up NHS sites in clinical trials (D)

SKILLS AND KNOWLEDGE

• Excellent IT skills including email, spreadsheets, word processing, databases and the Internet,

and working knowledge of MS Office Suite (E)

- Ability to promote good working relationships and resolve difficult situations (E)
- Ability to evaluate risks inherent in clinical trials and with appropriate support, decide those which should be prioritised to ensure that risks are properly managed (E)
- Excellent oral, written and interpersonal skills with ability to deal face-to-face, via telephone and email with individuals from a variety of backgrounds, culture and nationalities (E)
- A methodical and accurate approach to work with attention to detail (E)
- Experience of data management (E)
- The ability to make and carry out decisions and know when to confer with colleagues or refer matters onwards (E)
- Experience of working unsupervised and taking responsibility for setting and meeting targets, for own work and others (E)
- Experience of working in an academic or similar institution (D)
- Experience of public speaking or presentations (D)
- Advanced organisational skills, managing several projects that are often time pressured, concurrently (D)
- Experience of managing a budget (D)

• Strong leadership skills (D)

PERSONAL ATTRIBUTES

- Ability to work collaboratively and as part of a team (E)
- Meticulous attention to detail (E)
- Flexible approach to work (E)
- Team player (E)
- Self-motivating (D)
- Ability to acquire new knowledge and skills (D)
- Willingness to learn new IT skills (D)
- Willing to contribute to procedures and processes of the CTU (D)

SPECIAL CIRCUMSTANCES

• Willing to travel (may involve an overnight stay) (E)

Essential Requirements (E) are those, without which, a candidate would not be able to do the job.

Desirable Requirements (D) are those which would be useful for the post holder to possess and will be considered when more than one applicant meets the essential requirements.

FURTHER INFORMATION

The post is available from 1 September 2025 on a full-time basis for a fixed term period of 36 months.

Salary will be £30,805 to £37,174 per annum on Grade 6 on the single salary spine.

Place of Work - The University is strongly committed to providing an excellent student experience and research environment, and it is expected that all staff will be available on campus to carry out their duties during their working week in support of these goals. We have a hybrid-working policy which supports a mix of at home and on campus 'hybrid' working for many roles. For the majority of hybrid roles, the expectation is a minimum of 60% of working time will be spent physically present in the workplace.

The flexibility of the hybrid-working policy allows the possibility of some remote working, but it is the expectation that all appointments will be UK based, with any overseas working agreed in advance by exception only.

If successful you will be asked to show evidence of right to work in the UK prior to any formal offer being made. Non-British and non-Irish nationals entering the UK to undertake employment or who are currently in the UK will have to meet eligibility criteria under the points-based immigration system. The University may be able to provide sponsorship under the <u>Skilled Worker</u> route if relevant criteria are met. Please note, due to the complexities of the immigration system, Skilled Worker visa sponsorship is not guaranteed for every role. If you would like further information about whether this role is eligible for visa sponsorship, please contact <u>staff.visacompliance@uea.ac.uk</u>

The post is superannuable under the Universities Superannuation Scheme and there is an annual holiday entitlement of 30 days plus statutory (8 days) and customary (6 days) holidays. The University is committed to creating an environment where the health, welfare and safety of all students and staff is of paramount importance. The University's Safeguarding Policy addresses both child protection and safeguarding children, young people and vulnerable adults within the work of the University. Appointment will be subject to satisfactory pre-employment checks, which may include an Occupational Health assessment.

Information on the benefits of working at UEA can be found at <u>https://www.uea.ac.uk/about/working-at-uea</u>.

If you require the information contained within this candidate brochure in a different format please email staff.recruitment@uea.ac.uk

HOW TO APPLY

To apply for this vacancy, please follow the online instructions at: <u>https://vacancies.uea.ac.uk</u>

The closing date for this role is 11:59pm on Thursday 7 August 2025.

Please note that the application form contains an Equal Opportunities section which must be completed. The Equal Opportunities information will not be made available to the selection panel and will not form any part of either the short-listing or decision making process.

It is anticipated that interviews will take place via Microsoft Teams on **Friday 22 August 2025** and we will inform you of the outcome of your application prior to this date. Candidates should note that travel and incidental expenses incurred in attending an in-person interview will not be reimbursed.

ABOUT THE SCHOOL

Norwich Medical School (MED) was established at UEA in 2001 and has over 300 members of teaching, academic, research and support staff – and a large number of active NHS secondees and honorary appointees from a wide range of disciplines (including medical specialties, clinical psychology and psychological therapies, biological sciences, health economics, epidemiology and medical statistics). In our relatively short history we have established a reputation for exciting and innovative research led teaching supported by a wide-ranging programme of research and team science.

The School has grown significantly with increases in the number of MB BS students as part of the national requirement to increase junior doctor numbers. The School also delivers a large number of Post Graduate programmes which support the NHS workforce. The School also includes a highly regarded Doctoral School supported by the Universities Doctoral College.

The School's research focus is on developing research themes, set within three research departments, that answer important health questions, from an understanding of the basic mechanisms of disease through to translational medicine and clinical trials.

We are an important park of the Norwich Research Park Community and have strong and growing links with the Norfolk and Norwich University Hospital, the Quadram institute, Earlham Institute and John Innes Centre. More widely we also have close working relationships with colleagues in the community as well as the James Paget University Hospital, Queen Elizabeth Hospital, Kings Lynn and our community partners in primary care and mental health.

ABOUT THE FACULTY

The Faculty of Medicine and Health Sciences is led by the Pro Vice Chancellor of Medicine and Health Sciences, Professor Philip Baker, working closely with the Deans of School, and the Associate Deans who share responsibility for the areas of Research; Enterprise and Engagement; Education; Admissions; and PGR. These senior academics, together with the Heads of Research Departments, Faculty Director of Operations, the Human Resources Business Partner, and the Senior Finance Business Partner (Faculty), form the Faculty Executive.

Teaching is organised through the Faculty's two Schools of study, comprising Health Sciences (HSC) and Norwich Medical School (MED), assisted by a Centre for Inter-professional Practice (CIPP).

The Faculty also has strong research links with the Norwich Research Park, comprising the Quadram Institute (QI), the John Innes Centre (JIC), the Earlham Institute (EI) and the Norfolk and Norwich University Hospital NHS Foundation Trust, see https://www.norwichresearchpark.com.

OUR VALUES

Shaped by staff, our UEA values represent a core set of standards for how we behave as an employer, drive excellence in teaching, learning and research, and collaborate as an anchor institution in our local community.

From tackling global challenges, striving for student and staff success, and creating a vibrant inclusive environment, our values are what unite us.

AMBITION
 COLLABORATION
 EMPOWERMENT
 RESPECT

AMBITION

We are ambitious for our future success.

We are forward-thinking and brave in our approach and decisions. We make space for innovation and creativity, seizing opportunities that are responsible and sustainable. We are ambitious for the advancement of education and research.

COLLABORATION

We are collaborative in our approach.

We work together with shared purpose. We build connections, share ideas and develop new networks. We champion our regional, national and global relationships and demonstrate that together we can achieve greater goals and positively influence the world around us.

EMPOWERMENT

We empower ourselves and each other.

We develop ourselves and others, trusting people to make decisions based on their expertise and knowledge. We continually improve systems and processes to support us in working in an agile and efficient way.

RESPECT We respect each other.

We treat everyone with respect and dignity. We value diversity and foster a community where people can express different thoughts and views. We are open to challenge, so we can learn and improve. We encourage a positive, inclusive environment where everyone has opportunities to fulfil their potential.

RESEARCH AT UEA

REF21 results showed that 91% of our research is world leading or internationally excellent (<u>The</u> <u>University of East Anglia : Results and submissions</u> : <u>REF 2021</u>); and the Knowledge Exchange Framework (KEF) results show UEA as above average across most indicators in our Cluster-X grouping (<u>Knowledge exchange framework:</u> <u>Dashboard (kef.ac.uk</u>)).

UEA research is highly cited, the 6th most cited in the UK and 41st globally (THE Research Citations rankings 2022). Ten researchers associated with the Norwich Research park and seven researchers from UEA have been named in the annual <u>Clarivate Web</u> of Science Group Highly Cited Researchers list for 2022.

UEA is listed in the World Top 100 for research citations (Times Higher Education World University Rankings 2023) and World Top 50 (Times Higher Education Impact Rankings 2022).

REF21 Highlights - Top 20s

- 1st overall, 6th for outputs and 1st for impact for (Anthropology and) Development Studies (8th for research power)
- 1st overall, 2nd for outputs and 1st for impact for Agriculture, Food and Veterinary Sciences
- 3rd overall, 7th for outputs and 8th for impact for History

- 4th overall, 14th for outputs and 5th for impact
 for Earth Systems and Environmental Sciences (9th for research power)
- 4th overall, 9th for outputs and 1st for impact for Social Work and Social Policy
- 5th overall, 8th for outputs and 7th for impact for Area Studies

UEA is home to several world-renowned Research Centres and Networks

- Climatic Research Unit (CRU) <u>Climatic</u> <u>Research Unit - Groups and Centres (uea.ac.uk)</u>
- Tyndall Centre <u>Homepage -Tyndall Centre for</u> <u>Climate Change Research</u>

- Productivity East <u>https://www.uea.ac.uk/groups-</u> <u>and-centres/productivity-east</u>

UEA houses the British Archive for Contemporary Writing (with material from renowned authors such as Doris Lessing and Lee Child), the nationally accredited East Anglian Film Archive, Sainsbury Centre for Visual Arts, Sainsbury Institute for the Study of Japanese Arts and Culture, and Sainsbury Research Unit for the Arts of Africa, Oceania and the Americas.

OTHER ACCOLADES

- Queen's Anniversary Prizes for Higher and Further Education have been awarded to UEA for international development studies (2009), creative writing (2011) and environmental sciences (2017). Notable alumni include Sir Paul Nurse (1973, Nobel Prize for Medicine 2001), Kazuo Ishiguro (1980, Nobel Prize for Literature 2017), Michael Houghton (1972, Nobel Prize for Medicine 2020) and Sarah Gilbert (1983) who led the Oxford University team to develop a COVID-19 vaccine, approved in 2020.
- Our Doctoral College, established in 2018, hosts six Doctoral Training Partnerships and integrates Faculty and School provision for 1600 Postgraduate Research Students (including those from across the Norwich Research Park), enabling collaboration and innovation.
- We recognise our global impact and were one of the first universities to declare
 a climate and biodiversity emergency in June 2019. Our sustainable campus,
 including over 50 acres of environmentally valuable parkland, is constantly evolving
 with ambitions to be 100% net zero by 2045 or sooner.
- UEA is a University of Sanctuary, an accreditation given to universities that show an ongoing commitment to creating a welcoming culture of inclusivity and awareness.
- UEA was awarded the Silver Athena SWAN Award in 2019, and all our Schools hold awards at Bronze or Silver.

A vibrant place to study, learn and work, UEA is a very special place.

A SUSTAINABLE UNIVERSITY

At UEA, we are now working to create a university that will be even better in the future, and we are working to achieve net zero carbon by 2045 (or earlier). Our Sustainable Ways vision is one of a resilient university – where consumption is efficient and selfgenerated energy supports low carbon goals, supported by a vibrant community of world-leading researchers and inspired graduates.

At a basic level, our sustainable development means that we try to balance the 'three pillars' of environmental, economic and social elements.

We challenge our environmental impact through on-site energy generation and a district heating and cooling network, reducing our reliance on grid electricity and therefore fossil fuels. We promote and use recycled and 'eco' products such as biological cleaning materials. We champion local suppliers and ethical causes, including Fairtrade and vegan products. We seek to ensure value for money in a holistic, whole-life costing sense in our new buildings and procurement contracts.

OUR INITIATIVES

Central campaigns, such as holiday shut-downs or awareness day events, support a whole-University approach to energy saving and other initiatives.

Follow us on Twitter @SustainableUEA

OUR CAMPUS

UEA is based on a campus that provides top quality academic, social and cultural facilities to over 17,000 students.

Although located in 320 acres of rolling parkland, virtually no part of the campus is more than a few minutes' walk from anywhere else, so everything is close at hand – the library, nursery, health centre, supermarket (incorporating a post office), banking facilities and restaurants. Amongst the striking buildings is the UEA's Sainsbury Centre for Visual Arts, which contains the Robert and Lisa Sainsbury Collection – one of the greatest art collections formed in Europe during the 20th Century.

The University has invested in new learning and teaching and research spaces, including a celebrated new Enterprise Centre that underpins its commitment to promoting student enterprise and entrepreneurship.

Sport and Recreation plays a major part in the life of the University of East Anglia, centred around the major Sportspark facility which is one of the most successful community sport facilities in the UK. This accessible and affordable facility provides a diverse range of activities, and incorporates a 50m Olympic size swimming pool, indoor climbing wall, coaching resource centre and sports injury clinic.

NORWICH A CITY OF STORIES

The city's motto is 'A fine city' and its strong cultural heritage has seen Norwich maintain the best of its historical character whilst developing to become one of the most vibrant and attractive cities in Europe. Norwich offers miles of riverside walks and cycle ways, and a unique collection of 1930's parks. The city is surrounded by beautiful countryside and within easy reach of the stunning Norfolk coast.

Norwich is a UNESCO World city of Literature, the first in the UK, as well as being one of the newly named Tech Cities recognising the growth of digital businesses in the region. The most prominent high-rise building, apart from the castle, is the magnificent 11th century cathedral, which still dominates the skyline. The city's medieval centre of cobbled streets remains largely intact, but there is still space for modern buildings such as the city's centrepiece, the Forum, which is a striking piece of contemporary architecture. The glass front overlooks the colourful open-air market (one of the largest in the country) and reflects the city in all its diversity.

The city is consistently rated as one of the top ten shopping venues in the UK. Norfolk and Suffolk attract thousands of visitors each summer. The famous Norfolk Broads are among the most important wetlands in Europe and a haven for rare plants, wildlife and insects. The Broads attract holidaymakers who come to navigate the intricate natural network of waterways formed by the Rivers Bure, Yare and Waveney and their tributaries.

For further information about UEA's excellent facilities, staff benefits, picturesque campus and the UEA working environment, please visit the 'Careers at UEA' microsite <u>https://www.uea.ac.uk/about/working-at-uea</u>. Additional information about living and working in the city of Norwich can be found at <u>https://www.workinnorwich.co.uk/</u>

If there is another city in the United Kingdom with a school of painters named after it, a matchless modern art gallery, a university with a reputation for literary excellence which can boast Booker Prizewinning alumni, one of the grandest Romanesque cathedrals in the world, an extraordinary new state-of-the-art public library then I have yet to hear of it. Norwich is a fine city. None finer.

STEPHEN FRY

LOCATION

Some cities you've heard of, others you have to discover. Norwich is one of the most beautiful, modern historic cities in Britain. It's a city that celebrates the independent, stimulates creativity, promotes change and encourages diversity.

UEA is a campus university located 3 miles from the centre of Norwich. Situated in the heart of Norfolk, which means it's an ideal location to explore Norwich and beyond.

BY RAIL

LONDON • 2 HOURS CAMBRIDGE • 1 HR 15 MINS BIRMINGHAM • 4 HOURS Many European cities (including Paris and Amsterdam) easily accessible by train

BY ROAD

KINGS LYNN • 1 HOUR CROMER • 45 MINUTES SOUTHWOLD • 1 HOUR

BY AIR

NORWICH AIRPORT • 20 MINUTES STANSTED AIRPORT • 2 HOURS London is a major airline hub and all main international destinations are easily accessible

An internationally renowned university, UEA is ranked in the UK Top 25 (Complete University Guide 2025), UK Top 30 (The Mail 2025) and the World Top 100 (Times Higher Education Impact Rankings 2024), where it ranks in the UK Top 20 for research quality (Times Higher Education Rankings for the Research Excellence Framework 2021) and World Top 20 for Health and Wellbeing (QS World University Rankings for Sustainability 2024), reflecting the international excellence of its research environment. The University holds UK Teaching Excellence Framework Silver status.

Equality, Diversity, Inclusion and Wellbeing

The University is committed to diversifying its workforce and to the wellbeing of all our staff. For example, we already hold an Athena Swan Silver Institutional Award in recognition of our advancement towards gender equality. Further details on our broader Equality, Diversity, Inclusion and Wellbeing work can be found on our <u>website</u>.
